1. The Office Action states, in Sections 1-4, that:

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Invention I and II (the applicant reads it as I and III) are related as process of making and product made. ***

Because these inventions are independent or distinct for the reasons given above and ***, restriction for examination purposes as indicated is proper.

Applicant agrees with the above classifications and elects Invention I for examination.

2. The Office Action states, in Section 5, that:

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined *** and (ii) identification of the claims encompassing the elected invention.
